CRIMINOLOGY

'The Aspiring Criminologist'

Welcome to the Aspiring Criminologist Pathway. Criminology is a multi-disciplinary subject which aims to give an insight into why crime is committed, how it is portrayed in the media and what punishments/preventative measures can be taken to tackle it.

Undergraduates in this area develop the skills to understand, challenge and potentially transform the criminal justice system, helping to create a fairer society. You will be able to engage with current issues. Though it combines elements of Sociology, Psychology, History and Media, Criminology is also an interesting and well-respected undergraduate course in its own right.

While Criminology is usually offered as a BA (by Durham, Birmingham and Bristol universities), at some institutions (e.g. Cardiff University and University of Gloucestershire) you can study the course as a BSc (which has a greater scientific focus). Modules vary from course to course but some examples include 'Gender, Culture and Society', 'Youth, Crime and Justice' and 'Psychology and Crime'.

A diverse range of careers is associated with a degree in Criminology including policing, law, forensic science, criminal psychology and social work.

Top tips to stand out from the crowd when applying:

- Keep up-to-date with relevant news and research
- Complete related work experience/volunteering
- Enter relevant competitions
- Wider reading
- Watching crime dramas/documentaries or listening or podcasts
- Complete a related EPQ in Y13

Good luck!
